

TECHNICAL DATA SHEETS

DESCRIPTION

Designed for both strength and stability, our PROCHAIR® line delivers value and performance for the reinforced concrete professional. With 1/2" cover height increments, chair selection is simple and our industry-leading stack efficiency reduces costs. Better stacking means the chairs are less costly to store, less costly to ship and less costly to place in the field. Our PROCHAIR® products straddle lower mats, carry heavy loads, are easy to tie, and have a minimal footprint for tilt-up and architectural applications, while protecting costly form work.

FEATURES

- Cover heights ranging from 1" to 7 3/4"
- Dual cover height in 1/2" increments
- Strong, stable, easy to use
- Excellent stacking and package density
- Minimal footprint
- Easy-to-read height markers

APPLICATIONS

- Bridge decks, parking structures, foundations
- Tilt-up buildings, precast
- Thick slabs and thin slabs.
- Double rebar mats
